

Ethics Module 1: Priority of Pharmacy Ethics in Healthcare

Register

Details

Setting: Home

Target Audience: Pharmacist, Pharmacy Technician, Student Pharmacist, Non Pharmacist, International Pharmacist, International Pharmacy Technician, Canadian Pharmacist, Canadian Pharmacy Technician

Description & Additional Information

This Educational Activity is provided by [Pharmacy Ethics, Education and Resources \(PEER\)](#) and designed to educate health care professionals on ethics to improve patient safety.

Ethics in pharmacy is priority for those that work in any area of pharmacy practice. Pharmacy personnel should have a basic understanding of the ethical principles that are recognized by pharmacy leadership. By engaging in conversations about ethics and being familiar with historical examples in pharmacy where ethics were breached, pharmacy personnel can work to prevent future ethical tragedies.

Completion of this course requires the participant to download and read a document and successfully pass an online quiz. Due to ACPE requirements, all quizzes must be completed and passed within 60 days of purchase.

Canadian and Other International Pharmacists and Pharmacy Technicians

If you do not have an NABP number, select "International Pharmacist" or "International Pharmacy Technician" when registering.

- Automatic submission is not available for these registration types.
- Participants selecting these options will receive a certificate of continuing education that you may self-submit to your accreditation body to be considered for CE credit.

Speakers
