

Ethics Module 2: Evolution of Healthcare Ethics

Register

Details

Setting: Home

Target Audience: Pharmacist, Pharmacy Technician, Student Pharmacist, Non Pharmacist, Canadian Pharmacist, Canadian Pharmacy Technician, International Pharmacist, International Pharmacy Technician

Description & Additional Information

This Educational Activity is provided by [Pharmacy Ethics, Education and Resources \(PEER\)](#) and designed to educate health care professionals on ethics to improve patient safety.

Healthcare is quickly changing, and healthcare professionals must be ready to evolve. Decision-making strategies are essential to ethical decisions on existing issues and future scenarios. Practicing these decision-making strategies in a non-rushed environment will assist the practitioner in making decisions under pressure.

Completion of this course requires the participant to download and read a document and successfully pass an online quiz. Due to ACPE requirements, all quizzes must be completed and passed within 60 days of purchase.

Canadian and Other International Pharmacists and Pharmacy Technicians

If you do not have an NABP number, select "International Pharmacist" or "International Pharmacy Technician" when registering.

- Automatic submission is not available for these registration types.
- Participants selecting these options will receive a certificate of continuing education that you may self-submit to your accreditation body to be considered for CE credit.

Speakers

Dixie Leikach, RPh, MBA, FACA ([More Info](#))

President and CEO, Pharmacy Ethics, Education and Resources (PEER)
