

Ethics Module 3: Importance of Business Ethics to the Pharmacy Community

Register

Details

Setting: Home

Target Audience: Pharmacist, Pharmacy Technician, Student Pharmacist, Non Pharmacist, Canadian Pharmacist, Canadian Pharmacy Technician, International Pharmacist, International Pharmacy Technician

Description & Additional Information

This Educational Activity is provided by [Pharmacy Ethics, Education and Resources \(PEER\)](#) and designed to educate health care professionals on ethics to improve patient safety.

Pharmacy is a challenging profession. Add business into the mix, and you have a combination that creates many ethical dilemmas. This program will introduce the ethical principles of pharmacy and business and review a sound decision-making process. The discussed scenarios will assist an owner, supervisor, or manager in better preparing for difficult daily situations in pharmacy practice.

Completion of this course requires the participant to download and read a document and successfully pass an online quiz. Due to ACPE requirements, all quizzes must be completed and passed within 60 days of purchase.

Canadian and Other International Pharmacists and Pharmacy Technicians

If you do not have an NABP number, select "International Pharmacist" or "International Pharmacy Technician" when registering.

- Automatic submission is not available for these registration types.
- Participants selecting these options will receive a certificate of continuing education that you may self-submit to your accreditation body to be considered for CE credit.
